## 8th Grade Pancake Breakfast Fundraiser – Feb 23

Our friends at Aubrey's Restaurant in Powell cooked up a fine mess of eggs, hotcakes, and bacon for around 600 hungry folks at our annual 8th Grade Pancake Breakfast fundraiser. Many, many thanks to our 8th Grade Room Parents for organizing the selling of tickets, shift assignments, carpooling, etc. Our 8th Graders did a great job seating guests, serving plates and refilling drinks. All monies raised will go towards funding their class trip to Camp Greenville and graduation expenses. Go Bulldogs!

## Bulldogs Compete at KofC Free-Throw State Finals – Feb 24

Our five Regional Champions, Mary Eunice, Tori Tampas, Caroline Krueger, Logan Allen, and Ricky DeLeon, travelled to Murfreesboro, TN for the State Finals of the Knights of Columbus Free-Throw Competition. Caroline Krueger finished in 1st Place for her age group in Tennessee and all our other competitors finished in 2nd - Congratulations and Go Bulldogs!

## Special Guests in 6th Grade Science Classes – Feb 28

6th Grade Science classes were treated to two guest speakers who worked for TVA. Mr. Mark Calvert spoke to classes about Power generation, specifically Coal, Natural Gas, Nuclear, Hydroelectric, and Wind power, and how these methods are being used now and in the future. On Friday, March 1st, Deacon Mike Eiffe discussed Hydrology, the study of water systems in the Tennessee Valley. He discussed rainfall amounts (did you know Tennessee does not have a rainy season?), the effects of runoff, and why it is important to study this. Both talks highlighted 6th Grade's study of Natural Resources.
