

St. Dominic Annual Science Fair

Upper East Tennessee Science Fair Winners

The 47th annual Upper East Tennessee Science Fair was held on March 23 at E.T.S.U. Participants included 180 students from 25 schools. Projects explored many topics, from “magnetic” sand to the lifestyles of middle school students. The projects were judged in several award categories by over 35 professional scientist and engineers. Congratulations to Joseph Michael who won the 5th grade Eastman Foundation Grand Prize. Other winners from SDCS included: Sean McDuffie-2nd place 4th grade physical science, Cooper McLain 1st place 5th grade Biological Science, Richelly Lorenzo-Guzman 1st place 5th grade Physical Science, Graciela Mondragon 3rd place Engineering/technology related entry.

Sheep Heart Dissection

Fifth grade students had the opportunity to dissect a sheep's heart and explore the aorta, arteries and ventricles.

40 Cans for Lent

The Saint Dominic School Hearts-of-Service program continues to involve its children in service to the community. During Lent, SDCS embraces "40 Cans for Lent." Children are encouraged to make one food purchase a day for a local hunger-relief organization. That purchase can be made through the student-run SDCS Lenten Store.

SDCS fourth and fifth graders sharpen their money math skills in preparation for working the Lenten Store.

Dr. Carr's 3rd grade crew is studying magnets and electricity. The kids are having a great time learning the Levitation Trick used by many magicians!

Fourth and fifth grade students discover the eating habits of owls through dissection an owl pellets.
